## **The College**

Maris Stella College, Vijayawada is a Catholic Christian Minority Institution of Higher Education for Women, started on 16<sup>th</sup> July, 1962 with the primary objective of providing higher education for women. It aims at an integral and personalized education of the young. In the context of the emerging global, national and regional concerns Maris Stella strives to enable students to grow into socially aware and responsible citizens.

## **The Library**

Maris Stella College has its excellently equipped library housed in a three storeyed building situated in the centre of the campus. It is adequately ventilated and furnished with a congenial academic ambience. It has been identified as the best library in the purview of Acharya Nagarjuna University in 2009. Books of UG and PG sections are arranged in two separate buildings. The library has a collection of more than 90000 books and a good number of national, international and e-journals. It is automated and circulation is done with barcode technology, providing OPAC (Online Public Access Catalogue) LAN, free internet access and Reprographic facilities. The library has access to online resources with N-List. Users can access all the e-resources (more than 97,000+eBooks, 6000+ejournals and National and International journals) online at any location. This also enables free downloading of all material.

Well qualified and trained staff interested in the implementation of new technologies contributes to the professional functioning of the library.

## **About the workshop Theme**

Libraries are constantly facing challenges to meet the ever increasing expectations of users due to lack of funds. Therefore it is essential to upgrade the library services and systems using new technologies. Open source software for automation of services offers an opportunity for library professionals to update their libraries

NewGenlib is an Open-source Integrated Library System developed by Verus Solutions and Kesavan Institute has provided the domain expertise.

## **Objectives**

- \* To create awareness among professionals about open source software
- \* To equip library professionals with new skills and knowledge
- \* To help the participants in understanding the Open source software NewGenlib to automate their libraries
- \* To enhance the library services with technology

**At the end of the workshop, participants should be able to:**

- get familiarized with open source software
- will help the library professionals to automate their libraries

## **Target Participants**

Library & Information professionals  
Library Science Research scholars & students

## **Resources Persons**

The workshop sessions will be handled by experts from Verus solutions Pvt, Ltd, Hyd.

## **Workshop date**

21<sup>st</sup> July, 2017 (Friday)
