Objectives of the seminar

Illicit and indiscriminate utility of Phyto resources threatens their survivability and sustainability and further results in the depletion of these resources for future consumption. A better understanding about their potential use and the factors responsible for their degradation is need of hour.

Though conservation measurements have been proposed to restore and save those Phyto-ecosystems, their implementation is challenge in view of their extreme utilization with increased human population consumption. However the emergence of sophisticated technology aids in assessing their condition along with restoring, regenerating them for both Phyto resources and human sustainability. In view of this

the present conference focuses on bringing various researchers, scientist, and academicians to share their knowledge with respect to the proposed conference theme.

Call for Papers/ Posters

Original research papers, research surveys, case studies on any of the sub themes or covering topics relevant to the main theme of the conference, using 12 Point Times New Roman Font.

The research scholars and students can submit posters. (poster size:1m x 1m) Best posters will be awarded prizes.

Sub Themes

- Ecology/diversity/economic importance / Taxonomy of lower and higher plant groups
- Medicinal botany/Ethno botany/ Phyto-chemistry/pharmacology
- Interdisciplinary approaches in plant studies for conservation and sustainability (including plant biotechnology)
- Employment opportunities vis-a-vis plant products

- Approaches using plant as source to combat pollution and climate change.

Target Participants

Faculty, Research Scholars, Students

Resource Persons

The seminar sessions will be handled by experts

Seminar Date

17th August, 2018 (Friday)

Registration Details

Faculty : Rs. 1000/-
Research Scholars : Rs-500/-
Students : Rs.200/-

Send D.D in favour of

" Principal, Maris Stella College" payable at
Vijayawada

Last date for Abstract submission: 20th July 2018

Intimation of acceptance and registration by 30th July 2018. Abstracts / full papers should be sent to following mail ID. 18cspr@gmail.com

About the College

Maris Stella College is a Catholic Christian Minority Institution of Higher Education for women, under the direction of the Franciscan Sisters of Mary. From its inception 16th July, 1962, it aims at an integral and personalised education of the Young. It strives to produce intellectually competent, morally upright, socially committed and spiritually inspired women imbued with the values of humanism in the service of India today and tomorrow. Maris Stella identifies and nurtures potentials in students for higher learning and research in order to contribute significantly to knowledge systems.

Dept of Botany

The Department of Botany started in 1962 has witnessed manifold development since the inception. The department is focuses on grooming the students to inculcate spirit of learning PLANT SCIENCES in them. It is well equipped with all for Practicals and Research. The Department bagged the best laboratories award from Acharya Nagarjuna University in the year2010.Minor and Major projects have also been taken up by the Department .Students have done many relevant projects under the guidance of the faculty and they are published in reputed journals. Certificate courses like Mushroom cultivation, Horticulture and Herbal medicine are offered by the Department for skill development and self employment.
